COMMITTEE REPORTS

ECC FOUNDATION Response to ECCFA Questions- Re: Proposed ECCFA Scholarship Changes (Katherine Sawyer)

- 1 *Why is it limited to part time students?* This was a criteria imposed by the faculty senate when the fund was established. There may be some faculty members at the college or recently retired who could speak to the groups previous desire to impose this restriction. If this criteria is no longer desirable or valid, it can certainly be removed. Removing the PT restriction will make the fund available to a wider set of students.
- 2 *What is the role of faculty in the selection process?* The award of Foundation scholarship award is done by the Financial Aid office. This is true of all Foundation scholarships and is in place to serve as a protection for our students and our donors. (please see attached overview on the scholarship program, page 4, Q&A #2) In the case of a hand full of scholarships where the award is contingent upon an audition or has a strong programmatic alignment, the FA department may consult with department leaders/coordinators to rank the final candidates. The goal is to have all scholarship funds awarded before the academic year starts so that students have visibility to their full financial package (which could make the difference for them in determining how many classes they can take or if they can attend at all).

Where donors, and especially faculty, play a tremendously valuable role in the process is through promotion of scholarship application among current and prospective students and then after the award in extending encouragement. We offer opportunities to meet award recipients formally through the annual Donor Appreciation Breakfast (October 21) and informally through other Foundation events. We would also be happy to coordinate a time for ECCFA's recipients to attend a Senate meeting if this would be of interest.

- 3 *Might we consider including certificate programs in addition to transfer or career?* Yes! Establishing the award criteria is at the discretion of the donor, ECCFA. I would recommend that it not be too restrictive or the FA team will have trouble finding qualifying students to award and funding will go unspent. If the group would like to open it up to all credentials (both degree and certificate in transfer and career), this will once again open the eligibility to a larger pool of students.

I've scanned a copy of the original criteria sheet from 2010 and attached should it be helpful in assessing the group's initial intentions. You'll see that we've updated the worksheet since this time, streamlining criteria selection options to enhance the probability of award and align with the Foundation Board's financial policies on scholarship creation. (see addendum)

Committee Report: Grievance

Members: Howard Russo—LVPA (co-chair), Ellie Swanson—LRIE/ESL/ABE (co-chair), Kris Campbell—MSE, Jessica Carpenter—CABS, George Rosa—SBCT, Mary Arndt—HP, Pat Brutchin—UA
Grievance Committee has addressed the following issues since the last report:

- Questions regarding triennial evaluation
- Evaluation when teaching in a secondary division
- Lane placement concerns
- Pay for review sessions
- Lab pay
- Special pay issues—we are pushing for a big picture solution to this process which takes way too long.
- Discipline meetings—the committee is working on a way to involve more members of the committee.

Respectfully submitted,
Howard Russo, Ellie Swanson
Grievance Committee co-chairs

Student Success Infrastructure (Dan Kernler, SSI Co-Chair)

The Student Success Infrastructure has an updated mission statement:

ECC's Student Success Infrastructure aims to improve student success among diverse student populations by providing equitable support and resources.

We are currently revisiting college success data to determine an appropriate focus for this academic year. Developmental success and completion rates have increased, but not all groups are succeeding at comparable rates. We will work to finalize goals for AY2017-2018 at next week's meeting.

Also, though our budget has been shrinking steadily over the last few years, it looks like we will have some available funds for this year, so look for a call for proposals soon.

COPE: IFT Higher Ed Constituency Council (Kimberly Tarver)

The IFT Higher Education Constituency Council agreed on three overarching goals to guide our actions for the for the next 18 months:

- 3 Increase Funding for Illinois Higher Education
- 4 Elect a Pro-Higher Education Governor
- 5 Maintain and Build Powerful Higher Education Locals and Chapters/Councils

To this end, one of the first tasks is to identify a "top-line" message focused on increasing funding for Illinois Higher Education. This top-line message would build on the messages developed and utilized last Spring for the statewide April 27 "Teach Out" and related actions related to this event.

Specifically, we are asking for the participation of a representative from your ECCFA to serve on a task force charged with developing this top-line message (with the view that this group may develop into a Communication Task Force for the Higher Education Constituency Council). A brief conference call will begin the process of developing the message (most of this work will take place through email). The goal is to have an initial draft message developed by the end of October.

Volunteers should contact Kimberly Tarver ASAP.
