ADDENDUM

ECCFA President's Remarks to Board of Trustees: August 8, 2023

This is always one of my favorite times of year: the start to a new school year. I look forward to working with and getting to know a new group of students. I look forward to catching up with colleagues and working with them in our support of our students.

We are lucky to have such a diverse student community on our campus. The experiences and insight all of our students bring to the classroom is a joy, and there is nothing better and more inspiring than when a student shares an insight during classroom discussions that is unique and different perspective. In my Shakespeare notebook, I have margins full of ideas that students came up with during our discussions. These are ideas I want to research further or bring up in future discussions.

Just as we have a diverse student community, we also have a diverse faculty community who have their own experiences and perspectives and offer valuable insights into supporting our students. Within our faculty community, we have additional diversity: our adjunct faculty, our faculty librarians, and full-time faculty. And just like our students need different kinds of support in order to do well in their classes, our faculty need different kinds of support to do well in supporting our students. It is in this area that we are lacking equity.

Imagine being a full-time librarian having a research appointment with a student. The student is a little shy about discussing their topic in public, but because our full-time librarians do not have offices, that student has to have this meeting in a public space. This is inequitable for the librarian and the student.

Our adjunct faculty have similar issues, as they have offices, but it is a shared space with many other faculty. Imagine an adjunct faculty member talking with a student about their performance in class and not having any privacy. This becomes a violation of FERPA, but is also inequitable for the faculty member and the student.

I don't have enough time here to explain all of the inequities that are adjunct faculty and librarian faculty face, but I hope as this new year begins that the college will start considering how best to support ALL our faculty members because until our faculty are treated equitably, we can't truly provide equity for our students.

Thank you.
